

MOVING YOUR FUTURE

NSK is a world leader in bearings, electrically assisted steering systems for the automotive industry, precision and mechatronic products. Our products are used, among others, in wind turbines, machine tools, as well as in vehicles of almost all reputable car manufacturers. NSK originates in Japan and employs nearly 32,000 people in more than 30 countries around the world.

We are looking for a candidate with higher education for the position:

Materials Technician

Ref. KIE/01/ETC/0524

Location: Kielce

Recruitment is covered by the "Join NSK" Program (referral bonus).

This is the job for you if you are looking for a position where you can develop your engineering skills while working in an international environment.

Your responsibilities will include:

- Carry out routine tasks in support of bearing material testing and investigations
- Record and report the results of testing carried out in support of bearing material investigations
- Maintain laboratory equipment in good working order by ensuring routine maintenance and calibration is carried out on time
- Maintain a sufficient store of laboratory consumables and spare to ensure operational effectiveness

We are looking for you if:

- You have Technical education – mechanical
- 3 years experience on a similar position
- You are speaking communicative English (min. level B1)
- You have interest in science / engineering

If you want to join us:

- Send your CV, including the ref. number in the title, to the following address: cader-m@nsk.com
